

SECRET

1 December 1960

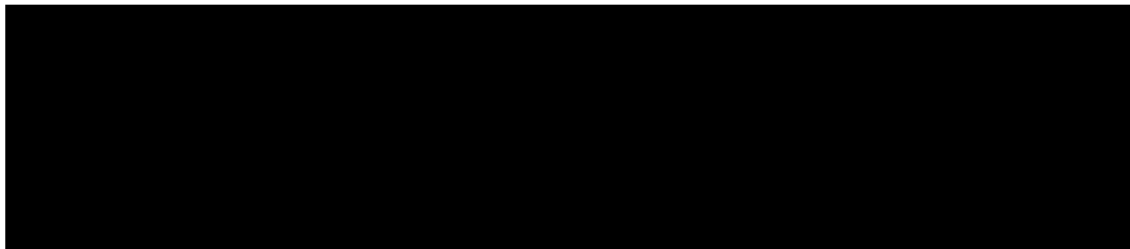

MEMORANDUM FOR: Deputy Assistant Director for Operations

SUBJECT: OSI Collection Problem: Soviet ICBM Sites and
ABM Efforts

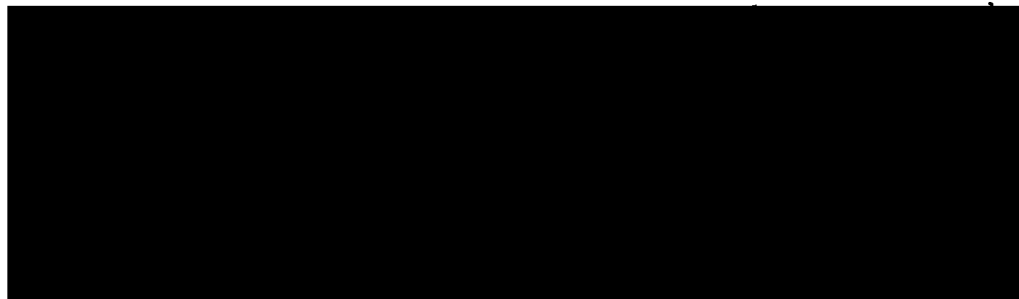

25X1A

1. The FDD action requested under the outlines prepared by [REDACTED] has in effect been performed under the Division's continuous reporting program, beginning even prior to 1956. The FDD serial publications in which the information is reported are described below. In view of the detailed coverage we have provided from all available Soviet documents, it is evident that re-examination of the materials would yield virtually no additional information. Our collection efforts will of course continue with respect to current source materials, with priority treatment of information bearing on the subject problem.

25X1B

3. Information has been exploited in current Soviet scientific and technical publications and published in FDD publications, since 1955, as follows:
